

As told by Angel Rivera

I have always been a lover of Ford Mustangs, and I guess it all started with my Dad. He was once the proud owner of a 1971 Mach 1 Mustang. My first chance to own a fine stallion was after completing my tour of service in the United States Marine Corp (Semper Fi). I had the opportunity to purchase a 2008 Shelby GT500. It was red with black stripes and she was a real beauty. But being the Mustang lover I am, temptation caused my eyes to wander.

In 2013 I decided to trade my GT500 for a BOSS 302, I really liked the handling as well as the sound of the Boss. Still not completely satisfied, I was browsing the web one day and found the car of my dreams, and it was already set up the way I wanted it. Yes, you guessed it....a 2013 Shelby GT500, black with red stripes, Recaro seats, trackpack and the SVT 20th anniversary package. She was located in

West Palm Beach Fl., and I had to find a way to go take a look. I thought to myself, this would be a good time to take the family on a little vacation and West Palm Beach became the ideal destination. I guess the rest is history, we had a wonderful vacation and I ended up with the car of my dreams...not bad huh? Although I have a few more mods planned for the future, I have to tell you....I love my 731 HP/720 Torque daily driver.
